Oath/Declaration

Upon review of the original claims pending in the application and the claims according to the preliminary amendment, a new Oath or Declaration is required to be submitted such that the applicant indicates that the applicant understands the amended claims.

Election/Restrictions

This application contains claims directed to the following patentably distinct species:

- Species I: claims 1-8, 13-18, and 22-27 are directed to an apparatus and method which involve a first display device and a second optional or freely loaded/unloaded display device and controls the display on the two panels in a manner responsive to whether or not the second display is loaded or available.
- Species II: claims 10-12, 19-21, and 28-30 are directed to an apparatus and method which involve a first and second display device and controls the options available on the screens. The controls are not directed to the presence or absence of the second display as that is not claimed as an option.

The species are independent or distinct because the two species are not disclosed as being related to one another in a usable manner and the limitations of one species are not available to the other.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims appear to be generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.
MPEP § 809.02(a).
